

## SENIOR ECONOMIST

The Institute for Structural Research is looking for a qualified and motivated **post-doctoral researcher who specialises in the field of labour economics**. The selected candidate is expected to take a leading role within the Institute's research projects which are situated at the intersection of labour economics and technological change, globalization, climate and energy policies.

The Institute for Structural Research (IBS) is a leading independent and non-profit economic institute based in Warsaw. We offer a dynamic and interdisciplinary research environment and provide the opportunity to present your findings on international conferences and to network with scientists from leading European academic institutions. Since our foundation in 2006, we have conducted over 200 research projects for entities such as the World Bank, OECD, various ministries, Chancelleries of the Prime Minister and President of the Republic of Poland, the National Bank of Poland and others. Current major projects are: Horizon2020 TRANSrisk project dealing with EU climate policy, National Science Centre grant for a project entitled: "The effect of climate policies on labour market", System of Forecasting for the Polish Labour Market for the Ministry of Family, Labour and Social Policy.

The job assignment is expected to begin as soon as possible. We offer a competitive salary based on qualifications and experience and flexible working arrangements.

### Requirements:

- a candidate holding or finishing a PhD degree in economics,
- experience in macroeconomic modelling (DSGE, CGE or econometric models) in the context of labour markets,
- proficiency in statistical or numerical software such as STATA, MATLAB or R,
- proficiency (C1) in English (knowledge of Polish is not necessary).

### The perfect candidate:

- has experience with search-and-matching models,
- has experience in macroeconomic forecasting,
- can conduct research independently,
- has experience in applying for scientific funding (such as National Science Centre or Horizon2020 grants).

Applicants can submit their application (CV, motivational letter, academic articles) by email: [rekrutacja@ibs.org.pl](mailto:rekrutacja@ibs.org.pl) until **April 15, 2018**.
