

ECONOMIST

Location: Warsaw

The Institute for Structural Research is looking for a qualified and motivated post-doctoral researcher who specialises in the field of labour economics. The selected candidate is expected to take a leading role within the Institute's research projects which are situated at the intersection of labour economics, technological change, and globalization.

Requirements:

- a candidate holding or finishing a PhD degree in economics,
- solid background in econometrics,
- graduate-level knowledge of labour economics,
- proficiency in statistical or numerical software such as STATA, R, or PYTHON,
- proficiency (C1) in English (knowledge of Polish is not necessary).

The perfect candidate:

- has experience in micro-econometrics,
- is able to conduct research independently,
- has experience in applying for scientific funding (such as National Science Centre or Horizon2020 / Horizon Europe grants).

We offer:

- [a dynamic and interdisciplinary research environment](#) (Horizon 2020, POWER, NCN),
- an opportunity to present research findings at international conferences and to network with scientists from leading European academic institutions,
- a competitive salary based on qualifications and experience,
- flexible working arrangements: minimum 2 days per week in our office in Warsaw combined with remote work,
- a benefits scheme: a healthcare package, Multisport Card.

Applicants are invited to submit their application (CV, a cover letter, a consent to the processing of the personal data) by email: rekrecja@ibs.org.pl until **December 20**, 2021.

*The controller of the personal data provided in your application is the Institute for Structural Research Science Foundation, with its registered office in Warsaw, Irysowa 18c. You may contact the data controller via e-mail at rodo@ibs.org.pl or by phone at +48 22 629 33 82. You shall have the right to access your personal data, rectify, erase, restrict the processing of your personal data, the right to data portability, and the right to object to your personal data processing. You shall have

the possibility to complain to the President of the Office for Personal Data Protection if you decide that your personal data is processed in violation of general provisions of the General Data Protection Regulation (GDPR) of 27 April 2016.
