

RESEARCHER

Location: Warsaw

The Institute for Structural Research offers a full-time research position for qualified and motivated PhD candidates, PostDocs or other researchers who have recently fled Ukraine due to the war. The selected candidate is expected to work on the topic of energy transition and climate mitigation policies, relevant to the field of interest of the TIPPING+ - a Horizon 2020 funded project.

The main responsibilities of the researcher will be to:

- analyse quantitative/qualitative data,
- review academic publications and policy documents for comparative studies,
- contribute to joint papers, working documents, policy briefs and other publications, with particular attention to Ukrainian aspects

The TIPPING+ research aims to further develop the scientific and practical understanding of why and how carbon-intensive regions and systems transform into low-carbon, clean energy development trajectories; or on the contrary, go in the opposite direction with all the social and ecological implications of a coal-intensive development trajectory.

Requirements:

- a candidate holding or finishing a PhD degree in social sciences (economics, sociology, political science, or other relevant fields),
- work experience relevant to the field of interest of the TIPPING+ project,
- background in statistical or numerical software such as STATA, R, or PYTHON and data handling,
- proficiency (C1) in English or/and Polish.

The perfect candidate:

- has got an experience in econometrics,
- can conduct research independently (a proven academic publishing experience).

We offer:

- a full-time research position until the end of April 2023,
- a dynamic and interdisciplinary research environment,
- a gross salary between 1000–1500 EUR based on qualifications and experience,
- flexible working arrangements – we allow fully remote working from Ukraine,
- a benefits scheme: a healthcare package, Multisport Card.

Applicants are invited to submit their application (CV, a cover letter, a consent to the processing of the personal data) by email: rekrutacja@ibs.org.pl until **June 30th**, 2022. The job assignment is expected to begin as soon as possible.

*The controller of the personal data provided in your application is the Institute for Structural Research Science Foundation, with its registered office in Warsaw, Irysowa 18c. You may contact the data controller via e-mail at rodo@ibs.org.pl or by phone at +48 22 629 33 82. You shall have the right to access your personal data, rectify, erase, restrict the processing of your personal data, the right to data portability, and the right to object to your personal data processing. You shall have the possibility to complain to the President of the Office for Personal Data Protection if you decide that your personal data is processed in violation of general provisions of the General Data Protection Regulation (GDPR) of 27 April 2016.
