

**OECD Economic Survey of Poland 2018:
Towards an innovative and inclusive economy**
Innovations, skills and female labour market participation

March 19, 2018, 15:00 – 17:00
Institute for Structural Research (IBS)
Wiśniowa 40B/8, Warsaw

The 2018 OECD Economic Survey of Poland (to be published on March, 19th) discusses policies that would help strengthen Poland's innovative capacity, the quality of its infrastructure along with skills and employment. As strong employment is needed to confront the demographic transition in Poland we will also present a detailed analysis of the impact the 500+ benefit had on the Polish labour market. The presentation will lay out the main findings and policy recommendations of the Economic Survey.
