

ECONOMIST (POST-DOC)

The Institute for Structural Research (IBS) is seeking a candidate for the Economist (Post-Doc) position. This role will include research using discrete and conjoint choice experiments and quantitative methods (simulation and/or econometric modelling, data analysis). The Economist (Post-Doc) will be a member of the team working on projects related to energy transition and energy and climate policy.

Essential requirements:

- PhD candidate (in the final stages of a PhD) or holder of a PhD in economics
- Solid knowledge of microeconomics
- Experience in running discrete and conjoint choice experiments
- Experience in microeconomic modelling
- Proficiency with statistical and computational software such as STATA, MATLAB, R
- Fluent English

Additional assets:

- Knowledge of energy economics and/or climate policy
- Research experience in labour markets, living standards, housing sector, inequalities
- Experience in conducting survey-based research
- Experience in implementing research grants (e.g., NCN, Horizon grants)

We offer:

- [Work on international and national research projects](#) (Horizon, NCN OPUS)
- Support in conducting independent research and in writing and publishing academic papers
- Participation in international scientific conferences and collaboration with research partners from leading European institutions
- Employment contract ([following NCN OPUS regulations](#))
- Flexible working hours
- A benefits scheme: a healthcare package, Multisport Card.
